

# Access Human Cerebrospinal Fluid from Trusted Suppliers

 Access a network of over 200 suppliers at once to find the best sample for your research

Request: Human Cerebrospinal Fluid (CSF)

Cerebrospinal Fluid is difficult to obtain for research purposes, as it is a sensitive and risky procedure.

Alzheimer's patients often undergo CSF collections as part of their standard care, so samples are not rare, however leftover samples (post-clinical care) are limited to volumes of approximately 2mL.
