

INTRODUCTION TO
VALUE, EVIDENCE & ACCESS

As healthcare moves towards outcomes-based decision making with increased focus on value, health economics outcomes research (HEOR) and real world evidence (RWE) are increasingly being used to guide value-based decisions. Scientist.com streamlines the sourcing of Value, Evidence and Access services by reducing time to contract, enabling quicker time to insight and improving market access.

WHAT ARE THE BENEFITS?

Cost Savings

Save an average of >15% when requesting multiple quotes

Time Savings

Save 6-8 weeks average per project with one pre-approved legal agreement

Minimize Risk

Leverage industry leading compliance tools (COMPLi®), that support your internal policies and procedures

Global Supplier Network

Access a network of 240+ global suppliers covering 60+ research areas in Asia Pacific, North America, Europe and Latin America
